HIGH SCHOOL PLUS PROGRAM**

High School Plus is a program that enables eligible students still in high school or younger to seek an expanded educational challenge. The student enrolls in MCC college classes for the purpose of earning both college and high school credit, or just college credit. Granting of high school credit is a decision made by the high school or home school official. Please note:

- All courses remain on the student's permanent MCC transcript including grades and/or withdrawals.
- After high school graduation, student follows the MCC New Student Enrollment procedure as college students.

ELIGIBILITY

- A. This opportunity is available to individuals who demonstrate strong academic ability based on performance either inside or outside of the classroom (e.g. GPA, test scores, extracurricular activities).
- B. Course prerequisites must be satisfied as identified in the McHenry County College Catalog.
- C. McHenry County College has a **Making Academic Progress** policy that goes into effect when a student accumulates 12 credit hours or more. This policy requires that students maintain a 2.0 "C" grade average. If a student fails to do so, the student will be put on academic restriction.
- D. MCC will adhere to a **selection process for the PCCS Program only** when the demand for a class is greater than seats available. A priority system will be established to rank students using the following criteria:
