Transfer guides are produced as a service to MCC students. Every effort is made to maintain up-to-date and accurate information; however, this information is subject to change. Such changes take precedence over the information on this guide. Students should work with an MCC advisor and the four-year transfer school. Responsibility for complying with all applicable requirements ultimately rests with the student.

The following information applies to the program articulation agreement between MCC's AAS in Nursing and Columbia's BS in Nursing. The Columbia College Missouri RN to BSN completion program is designed for the licensed professional registered nurse who has experiential knowledge and clinical competency. Columbia College of Missouri is accredited by The Higher Learning Commission (HLC) and is a member of the North Central Association of Colleges and Schools. The baccalaureate degree in nursing program at Columbia College is accredited by the Commission on Collegiate Nursing Education (CCNE) (<http://www.aacn.nche.edu/ccne-accreditation>).
