Transfer guides are produced as a service to MCC students. Every effort is made to maintain up-to-date and accurate information; however, this information is subject to change. Such changes take precedence over the information on this guide. Students should work with an MCC advisor and the four-year transfer school. Responsibility for complying with all applicable requirements ultimately rests with the student.

The Pathways Humanities Scholars program applies to the following academic areas: American studies, studio art, art history, Asian studies, English, French, Spanish, history, music, philosophy, religion, theater, and Latin American studies. The College encourages students to take advantage of internship opportunities and provides guidance not only to opportunities in the Chicago area, but also to national and international opportunities.
