**Transfer guides are produced as a service to MCC students. Every effort is made to maintain up-to-date and accurate information; however, this information is subject to change. Such changes take precedence over the information on this guide. Students should work with an MCC advisor and check with the four-year school as soon as the transfer decision is made. Responsibility for complying with all applicable requirements ultimately rests with the student.**

The BA in Psychology prepares students for careers that require research and analytical skills, such as careers in community and social services, as well as in human resource and personnel positions in business and industrial settings. Students also will be prepared for pursuing graduate education in any of the professional or academic areas of psychology and many other fields including law and medicine.
