Academic Advising

All NIU students must meet university graduation and general education (GE) requirements. Degree completion students work with the NIU advisor to identify GE deficiencies and monitor progress toward completion of these and other university graduation requirements (i.e. 120 total credit hours with at least 30 hours from NIU.)

Note: The articulation plan is designed to prepare MCC AAS-in Physical Therapy Assistant graduates to complete a baccalaureate degree and to meet the course work requirements for application to the NIU DPT. Admission to the DPT is highly competitive and limited and admission is not guaranteed. Interested students should review the NIU DPT admission requirements: http://www.chhs.niu.edu/physical_therapy/about/dpt/index.shtml

Admission requirements for other DPT programs may vary.
