Transfer guides are produced as a service to McHenry County College (MCC) students. Every effort is made to maintain up-to-date and accurate information; however, this information is subject to change. Such changes take precedence over the information on this guide. Students should work with an MCC advisor and the four-year transfer school. Responsibility for complying with all applicable requirements ultimately rests with the student.

Major options open to transfer students in The Gies College of Business include accountancy, finance, information systems, management, marketing, operations management, and Strategic Business Development & Entrepreneurship. At this time, transfer students are not admitted to the supply chain management major. **Please note that admission is competitive and curriculum space is limited. Meeting the following minimum criteria does not guarantee admission.**

Following is a summary of **APPLICATION PROCEDURES & ADMISSION CRITERIA** - For detailed and most up-to-date information, please refer to the following web site: <http://admissions.illinois.edu/Apply/transfer>

APPLICATION PROCEDURES

- **Application Filing Period** – Fall: December 15 – March 1 (notification by mid-April). Transfer students are admitted fall term only.
 - After these dates, applications are considered on a space-available basis.
 - Applying online is required.
 - Applicants are encouraged to submit all application materials prior to the February 1 priority deadline.
- **Applicants apply to one specific program.** Students can indicate a 2nd choice major. This allows students a greater opportunity to be admitted, especially when the first choice is highly competitive, such as programs in The Gies College of Business.

ADMISSION INFORMATION

- Admission is extremely competitive. The GPA average for admitted applicants in Fall 2019 applicants was 3.8. The Gies College of Business uses a holistic review process. Grades are important, but leadership qualities, community involvement, volunteerism, work experiences, communication skills, demonstrated analytical and critical thinking skills, and essays also play a major part in the admission process. Transfer students are admitted on a space available basis.
- Transfer students who have been enrolled full-time after high school graduation are considered for admission.
 - **Fewer than 30 graded transferable hours:** Evaluated based on courses and grades in college, high school academics, ACT/SAT scores, and application essays. Transfer admission preference is given to students who would have been admitted as freshmen.
 - **30+ graded transferable hours:** High school grades and standardized test scores are *not* considered in application decisions for these applicants.
 - If transfer students have completed or have in progress at the time of application 5 or 6 or more semesters of college coursework or 70+ semester hours of transferable coursework, transfer applicants are subject to review based on available space. Admission preference is given to students who can complete the program in no more than 9 total semesters of college (includes semesters at community college, excluding summer sessions).
- **Dual credit** is accepted for transfer applicants if the coursework is on a college transcript and the coursework is transferable. A transferable college course taken by a high school student will be awarded credit at the University and the grade will be included in the transfer grade point average.

- **Minimum GPA** is 3.0.
- **Admission GPA is calculated** on the basis of all **transferable courses** attempted for which grades are assigned and for which grade-point values can be determined. When a course is repeated, the grade point average is computed using both grades and all hours for the course.
- **Language admission requirement** - 3 years of one foreign language in high school or through second level in college prior to term of entry. It is **strongly recommended** that students complete the foreign language graduation requirement prior to transferring: 4 years of the same language in high school **or** 4 semesters at the college level.
- **Prerequisite Coursework** - Transfer applicants must have successfully completed the courses and requirements listed below by the end of the spring semester prior to fall entry. Required hours and courses must be completed or in progress by the term of application. Applicants will not be permitted to complete admission hours or course requirements during the summer prior to enrollment.
